

VRINDAVAN-MATHURA

REAL ESTATE AND AIRBNB GUIDE

Tourist data: UP Tourism Department 2024. Airbnb data: Airbtics Jun 2024-May 2025. Real estate: 99acres May 2026. Infrastructure: YIAPL, UP Government.

Mathura received 9 crore tourists in 2024 per UP Tourism Department. Vrindavan has 236 active Airbnb listings (Airbtics, 2025). Visits by prominent public figures have driven a measurable uptick in millennial and Gen Z spiritual tourism to the region, creating demand for modern accommodation that the existing inventory -- largely pilgrimage-oriented dharamshalas and budget hotels -- does not serve. This guide covers the real estate market and the short-term rental opportunity with verified data.

VRINDAVAN AIRBNB MARKET

Source: Airbtics, Jun 2024 to May 2025

Core Market Metrics

Metric	Data	Notes	Source
Median occupancy rate	41%	150 nights booked per year	Airbtics Jun 2024-May 2025
Average daily rate (ADR)	Rs 2,503/night	Median across all listing types	Airbtics Jun 2024-May 2025

Annual revenue (median)	Rs 3.76 lakh	All listing types combined	Airbtics Jun 2024-May 2025
Active listings	236	As of July 4, 2025	Airbtics
International guests	31.78%	ISKCON devotees, foreign pilgrims	Airbtics Jun 2024-May 2025
Peak months	Oct, Nov (Kartik)	Highest occupancy and ADR	Airbtics seasonality

ADR and Occupancy Distribution (Airbtics)

Performer Tier	Occupancy	ADR/Night	Estimated Annual Revenue
Bottom 25% (entry)	~20%	Rs 1,500-1,800	~Rs 1.1-1.3 lakh
Median (50th percentile)	41%	Rs 2,503	Rs 3.76 lakh
Top quartile (75th pctile)	~55%	Rs 3,200-3,800	~Rs 5.5-6.5 lakh
Top 10% (best-in-class)	~65%+	Rs 4,500+	~Rs 9-11 lakh

Distribution tiers derived from Airbtics market percentile data. Top quartile properties typically have premium locations (near Prem Mandir or Banke Bihari), professional photography, and consistent 5-star review management.

Seasonal ADR Pattern

Period	Occupancy Level	ADR Relative to Median	Key Driver
Kartik Month (Oct-Nov)	Peak	+40-60% above median	Parikrama, religious festivals
Holi (Feb-Mar)	Very high	+50-80% above median	Vrindavan Holi, national tourism surge
Janmashtami (Aug)	Very high	+60-100% above median	Krishna birthplace, national event
Oct-Mar (overall)	Strong	Above median	Winter pilgrimage and leisure season
Apr-Jun (summer)	Weakest	Below median	Extreme heat suppresses leisure travel

Airbnb in Vrindavan is a festival-driven market. A host who prices dynamically for Holi, Janmashtami, and Kartik month and captures 3-4 peak festival weekends per year can significantly outperform the median Rs 3.76 lakh annual revenue. Conversely, a host who charges flat pricing year-round will underperform. Dynamic pricing is the single biggest lever available to a Vrindavan Airbnb operator.

Five Things to Do Before You Sign Any Lease

- Confirm the landlord allows short-term rental and subletting in writing. Many Vrindavan landlords with religious or family properties have restrictions.
- Position near Prem Mandir or Banke Bihari temple. These are the two locations modern visitors specifically search for. Proximity is the single biggest ADR driver in this market.
- Use dynamic pricing for festival windows. Holi, Janmashtami, and Kartik month (Oct-Nov) are your three peak windows. Correct pricing in these windows alone changes your annual P&L; significantly.
- Study the top 10 performing Vrindavan listings on Airbnb. Most will have a clean modern aesthetic with a spiritual design element -- not generic hotel-style.
- Budget a 3-month runway beyond setup. First 30 days are slow before reviews accumulate. Reviews are critical in a pilgrimage market where trust is the primary booking driver.
